DURING RABI 2025-2026.

[G.O. Ms. No. 65, Agriculture - Farmers Welfare (AP4), 13th March 2026, மாசி 29, விசுவாவசு,
திருவள்ளூர் ஆண்டு-2057.]

No. II(1)/AGFW/5(g)/2026.

Crop calendar and Harvesting period of Green gram in the State of Tamil Nadu	A remunerative and stable price for Green gram farmers is very much imperative for increasing agricultural production and productivity. The market price of agricultural produce many times tend to be unstable and volatile resulting in undue losses to the farmers and discourage adoption of the modern technology and required inputs. The Government's price policy for agricultural commodities seeks to ensure remunerative prices to the farmers for their produce with a view to encourage higher investment & production and safeguard the interest of consumers by making available supplies at reasonable prices with low cost of intermediation. The price policy also seeks to evolve a balanced and integrated price structure in the perspective of the overall needs of the economy. In this regard, the Government announces Minimum Support Price (MSP) for major agricultural commodities every year for kharif and Rabi seasons after taking into account the recommendations of the Commission for Agricultural Costs and Prices (CACP).
